DEVULAPALLI NAGA SRI VAISHNAVI

8978970741 | vaishnaviharish2006@gmail.com | github.com/Vaishnavi220506
Portfolio: vaishnavi220506.github.io/portfolio | LinkedIn: linkedin.com/in/vaishnavi-d-9a42a9374

EDUCATION

Vellore Institute of Technology (VIT) **CGPA: 9.05/10**
Bachelor of Technology in Computer Science and Engineering, SCOPE
Ascent Junior College, Visakhapatnam **Class XII (CBSE): 98.2%**
Sri Prakash Vidyaniketan, Visakhapatnam **Class X (CBSE): 92.8%**

SKILLS

Programming: Python, Java, C, C++, JavaScript, TypeScript
Software / Web: React, Next.js, Vite, FastAPI, Flask, Express, REST APIs, HTML, CSS, Socket.IO, Git, GitHub
AI / ML: PyTorch, Hugging Face Transformers, scikit-learn, Neural Networks, CNNs, Autoencoders, Transformers, Attention Mechanisms, Reinforcement Learning
Computer Vision: OpenCV, YOLO, Object Detection, ByteTrack, Multi-Object Tracking, Video Analytics, Image Processing
AI Applications: Natural Language Processing, Generative AI, Explainable AI, Temporal Reasoning
Data / Tools: SQL, SQLite, SQLAlchemy, PostgreSQL/PostGIS, NumPy, Pandas, Matplotlib, Jupyter Notebook, Ollama

INTERNSHIPS

IBM Career Education Program - Generative AI Virtual Internship **May 2026 - July 2026**
Virtual internship credential in Generative AI

PROJECTS

RescueLink - Real-Time Emergency Coordination Platform github.com/Vaishnavi220506/RescueLink
React, TypeScript, Vite, Express, Socket.IO, Leaflet, PostgreSQL/PostGIS, Zod
- Built a hyperlocal emergency platform for help requests, resource offers, hazard reports, alerts, and temporary live-location sharing with atomic volunteer claims and role-aware access.

ClarityLoop - Multi-Agent AI Feasibility Workspace github.com/Vaishnavi220506/ClarityLoop-ai
Next.js, React, FastAPI, Python, SQLite, SQLAlchemy, Gemini, Ollama
- Designed a six-agent workflow that analyzes requirements, evidence, resources, risks, and scope, then generates feasibility reports with confidence scores, blockers, milestones, and Gemini/Ollama support.

KAVACH - Explainable Temporal Video Intelligence github.com/Vaishnavi220506/kavach-video-intelligence
React, FastAPI, Python, OpenCV, YOLO, ByteTrack, SQLite, Ollama
- Built a local warehouse-video intelligence system with object detection, persistent tracking, temporal behavior evidence, risk scoring, incident replay, SQLite records, and grounded natural-language search.

OPEN SOURCE CONTRIBUTIONS

Contributed upstream fixes through 3 merged pull requests across generative-AI, ML, and developer-tooling projects.

PyRIT - Open Source Contribution **PR #2356 - Merged**
FIX: support stereo audio frequency conversion. Updated multi-channel WAV handling to prevent NumPy broadcasting failures; validated with 1,095 tests and Ruff checks.

CrewAI - Open Source Contribution **PR #6881 - Merged**
fix: make pre-commit hooks portable on Windows. Replaced Unix-only activation with direct uv commands for Ruff, mypy, pip-audit, and pytest, with regression coverage.

ONNX - Open Source Contribution **PR #8448 - Merged**
fix(shape_inference): preserve custom callback lifetime. Retained guarded callback ownership and added regression coverage for short-lived registrations and garbage collection.

CERTIFICATION

Generative AI - IBM Career Education Program **View Certificate**
Adobe University Hackathon - Adobe **View Certificate**
University-level innovation and problem-solving hackathon organized by Adobe.
WINS AID AI Hackathon - STEMPulse **View Certificate**
Top 20 team; built an AI-enabled platform supporting women across learning, work, funding, and career re-entry.
